

## Woodward & Lothrop

New York—WASHINGTON—Paris

This Will Be One of the  
Best Days of the Summer  
For Men to Buy Apparel

The sales embrace a splendid variety of items for  
thrifty and economical choosing—and each  
one is the best of its kind.

The Shirts at \$1.15 bear evidence of being made to  
sell at a higher price, and they were—some of them  
having been taken from our own \$1.50 assortments,  
and others being bought special—all of them produced  
to be sold at \$1.50. There is a good choice of the  
favorite striped effects, narrow clusters, and broad  
ones; smart and distinctive colorings.

Bathing Suits are specially priced at \$2.95 and  
\$3.95, though they are worth nearly twice these prices,  
and they are good, perfect, fresh, and new. Silk-and-  
wool mixed cloths and pure wool; fade-proof patterns  
and colorings; half sleeve and sleeveless shirts. A good  
range of sizes.

\$2.95 each—regularly \$4.00 and \$5.00.  
\$3.95 each—regularly \$6.00 and \$7.50.

Reducing certain lines of Men's Summer Oxfords  
to \$2.45 and \$3.45 the pair provides a fine opportunity  
for choosing at low prices. At \$2.45 are Patent Col-  
skin Blind Eyelet Oxfords in a dressy model, and a  
good size assortment, and at \$3.45, were \$5.00. Dark  
Tan Russia and Gun Metal Calfskin in stylish modified  
English and semi-English designs.

All the remaining assortments of Men's and Young  
Men's Summer Suits, including fancy patterns  
and fabrics, plain and fancy blues and  
plain blacks, reduced to

\$13.75 and \$18.75 Each

Men's Store—Main and second floors.

### GERMANS INCENSED AT PARTIALITY OF NEWS

Sons of the Fatherland in United  
States Seek to Open Up  
Communication.

New York, Aug. 8.—Incensed at reports  
of French and English victories that  
they declare are impossible, while per-  
sistent silence from Berlin and other  
German sources leaves them undecided,  
prominent Germans in the United States  
are straining every effort to open up  
channels of communication through  
which the German side of the story may  
be put before the public.

The cutting of the German cable and  
the complete isolation of Berlin leaves  
Germany practically incommunicado at  
present, most of the war news coming  
from French and Belgian sources  
through London. German leaders here  
claim most of the reports are untrue and  
could not by any measure be possible.

As proof of their contention, they point  
out that two days before the fall of Sedan  
in 1870 American newspapers were print-  
ing articles, cabled from London or  
Paris, in which the complete defeat of  
the German army was described a dozen  
times over. Berlin then, as now, was but  
rarely heard from, and then only when  
the Emperor sent reports to the Queen.

From 1,000,000 to 1,500,000 goatskins  
and sheepskins are shipped from Ara-  
bia each year. The exports of these  
skins to all countries last year were  
officially valued at \$233,027.

## SEES NO GOOD IN SUFFRAGISTS

Mrs. Arthur M. Dodge, Anti  
Leader, Draws Lesson from  
the European War.

CALLS FOR SELFISH

Declares It Is Time Now for All  
Women to Contribute to Red  
Cross Fund.

"The women of this country should  
realize how tremendously any war,  
particularly such a one as the terrible  
conflict now raging in Europe, demands  
the exercise of the noblest qualities and  
the finest attributes of womanhood. Women  
of royal birth in Europe already have  
volunteered their services in nursing the  
wounded. The American Red Cross  
stands ready to rush its heroic women to  
the help of those suffering from battle  
and disease. In such countries as France  
the women are doing the work of the  
men who have been called to the front."

"It is an encouraging and an inspiring  
thing to note how the womanhood  
of the world upon whom, in the last  
analysis, the demands of war are always  
the most onerous, have responded to the  
present demand."

Mrs. Arthur M. Dodge, of New York,  
president of the National Association Opposed  
to Woman Suffrage, paid tribute to her sex in a statement issued  
here yesterday afternoon, but took occasion  
to comment on the attitude in Europe,  
and of some other women at such a  
time. She continued:

"It is a peculiar and significant fact  
that, when women of practically the en-  
tire civilized world are buying them-  
selves with humanitarian plans for re-  
lieving the distress and misery incident  
upon the tremendous conflict in Europe,  
the suffragists in this country should  
confine themselves to their selfish plans  
for raising money for advertising and  
promoting themselves and their propa-  
ganda."

"Here is the copy of a letter which is  
being sent out broadcast to American  
women at this time by the National Con-  
gressional Committee of the National  
American Woman Suffrage Association:

"I am writing to ask you if you will  
not contribute a bit of precious metal—  
gold or silver, to our Suffrage Melting  
Pot, that we may help the suffragists  
that have suffrage campaigns this fall."

"A contribution from you would have  
a double worth; aside from its intrinsic  
value the women of your district would  
be encouraged by your example and the  
cause enormously benefited."

"If convenient we would like to re-  
ceive your contributions not later than  
August 15 at this office."

"Thanking you in advance, I am,  
(Signed) 'ANTONETTE FUNK,  
'VICE CHAIRMAN."

"P. R.—We would be doubly indebted  
if you would send us your photograph  
with permission to use the same for  
publicity purposes."

"This selfish appeal, at such a time,  
is in keeping with the pledges made  
suffragists have signed to contribute not  
one cent of money nor one hour of work  
to philanthropic, charitable or educa-  
tional endeavor until woman suffrage  
prevails in this country. It all goes to  
show that neither the needy of this coun-  
try nor the sufferers of the greatest war  
in history can command the womanly  
sympathy and tender helpfulness of the  
suffragists. It brings squarely to the  
front the question whether woman suf-  
frage, exploited by such methods and  
heralded by such ideals, can ever do the  
United States any good."

"It seems that upon us, the anti-suf-  
fragists, depends the task of carrying  
out woman's duty, which is primarily to  
serve the republic in those ways for  
which women are essentially suited. It  
also seems a final demonstration of the  
fact that woman suffrage will do neither  
the women nor the country the slightest  
possible bit of good."

**GIRL SCOUTS "GROWING."**  
The Girl Scout Troop organized at Col-  
onial Beach, July 20, is rapidly gaining  
in members and practical experience. Five  
new members have joined the troop, and  
the girls have built their first camp fire  
and cooked their first meals in the open.  
Mrs. Lena B. Franklin is captain, and  
Miss Louise Billingsley is lieutenant.

## SEEK HELP FOR NATIONS NOW AT WAR

Pastors of Alien Churches in Wash-  
ington Urge Flocks to Beseech  
Providence for Aid.

PRAY FERVENTLY FOR PEACE

Peace was the subject of all the prayers  
offered in the churches of Washington  
and throughout the country yesterday.  
Novenas will be started in a number  
of Roman Catholic churches to ask  
the help of the Sovereign of the Universe  
in bringing peace to all nations. Most  
of the pastors devoted their sermons to  
war. Pastors of the Italian, French,  
German, Hungarian and Polish churches  
asked for divine help in the great  
struggle.

Rev. Father Nicholas De Carlo, pas-  
tor of Chapel of the Holy Rosary, an  
Italian congregation at 33 H street  
northeast, announced at yesterday's  
services that he will start a pri-dur, or  
three-day prayer, in his church next  
Thursday evening at 7:30 o'clock be-  
seeching divine help for all of Europe, but  
especially for Italy.

Other pastors who preached sermons  
asking divine aid for the struggling  
countries and requested the congregation  
to remember them in private prayers are  
the pastors of the German Baptist Church,  
North Carolina avenue and Fourth  
street southeast; St. Olaf Norwegian  
Lutheran at M Street and New York  
avenue; Rev. J. O. Twesten, pastor; Italian,  
Fifth and P streets northwest; Rev.  
N. J. Scarito, and St. Paul's English  
church, Eleventh and H streets north-  
west; Rev. John T. Huddle, pastor.  
There is a movement on foot in Jew-  
ish circles to have a day of fasting and  
prayer set aside for the peace of Eu-  
rope. This has been a habit among the  
Jewish race since the time of Mordecai,  
Esther, and Haman, when destruction  
threatened the people.

## AMERICAN CHEMISTS TO PROFIT BY WAR

Products Usually Sold by Germany  
Will Be Supplied by U. S. as  
Present Attempts Show.

MEANS BOOSTING OF INDUSTRY

American manufacturers of chemicals  
and dye stuffs are preparing to supply  
the demand for these products, which  
hitherto have been sold by Germany to  
a large extent, and a general boom in  
the industry is expected. The sensa-  
tional rise in the prices of chemicals  
used in the arts and trades continued  
yesterday.

Bleaching powder is now 5 cents a  
pound, more than double what it cost  
early last week, and it will continue to  
rise until the American supply increases.  
All the textile trades are looking for dye  
stuffs, especially the coal tar dyes, which  
the German and French manufacturers  
make in a great variety of colors. Cer-  
tain colors are not made in this country  
at all. If the supply of dyes fails en-  
tirely the chemists will have to find a  
substitute for them.

The weather is hot and hardly adapted  
to talking about furs, and yet this is the  
season when the wholesale furriers are  
busy with projects for the winter trade.  
Large quantities of native furs are sent  
over to Germany to be dyed, principally  
in the great market at Leipzig. The furs  
will have to be dyed in natural colors or  
dyed by other methods. The Germans  
have been doing this so well and so  
cheaply for years that the trade has  
been practically controlled by them. The  
ingenuity of American chemists and  
dye makers will be called into play, for  
there is need of something being done  
at once.

Many thousands of tons of ferro-  
manganese are used in this country in  
the manufacture of steel. The material  
comes from Russia. With the  
supply cut off, the steel industry will  
be strongly affected. Leaders in the  
chemical industry are trying to find a  
substitute for ferro-manganese. The  
United States undoubtedly would  
be able to manufacture this product of  
which Germany practically had control,  
because her chemists had made a specia-  
lity of them.

Meanwhile the great American  
chemical companies are preparing to  
manufacture a large number of dyes  
which are likely that if the war is of long  
duration there will be a considerable  
enlargement of all the important  
plants in the country.

There is a special field which the  
Germans have been taking in recent  
years, and that is the sale of chemical  
products. The Germans have secured  
this market and have found out exact-  
ly what it required. It is estimated  
that this trade amounts to \$25,000,000  
a year, of which only \$5,000,000 is ob-  
tained by the United States.

One of the large items of export  
from Germany is perfume. In recent  
years, however, the American manu-  
facturing chemists have become powerful  
rivals of the Gallic makers. This also is  
true of toilet soaps.

## THERE'LL BE SOME ROW IN RALPH'S SHOP TODAY

Eight-hour Law Inspector Is Going  
Over There to "Kick" and Money  
Engraver Says "Let Him Come."

CONGRESS ORDERS RUSH WORK

The Bureau of Engraving and Printing  
is violating the eight-hour law for wom-  
en. At least, this is the view of Wm.  
W. Garrett, one of the inspectors ap-  
pointed under the new law.

Mr. Garrett just learned last night  
that men and women are working as  
long as twelve hours at the bureau.  
"I'll get right after them in the morn-  
ing," said he. "I'll start some good  
business up there. I don't care what the  
emergency is, the United States has no  
right to violate the law of the District  
of Columbia."

Director Ralph, of the bureau, pleaded  
guilty to the charge last night, but his  
explanation precluded any action by Gar-  
rett.

"It is too true," said he. "We are  
working men and women here much  
longer than eight hours a day. But I  
have no apologies to make. We are at  
work upon an emergency job and some  
employees are working as long as twelve  
hours. They are doing it very willingly.  
In fact, it is a matter of patriotism  
with all of us. Congress has required us  
to get out a lot of money in the next  
few days and we are exerted by law  
from the operation of the eight-hour  
law."

The bureau is required under the emer-  
gency act to print \$100,000,000 in one  
lot and \$20,000,000 in another in ten days,  
and Mr. Ralph predicted that his force would  
make good on the job.

### CANADA DONATES FLOUR.

Ottawa, Ont., Aug. 9.—The Dominion  
government announces that all public  
works will be continued during the war.  
It has been decided to donate one mil-  
lion bags of flour to England as an  
aid in the provisioning of her military  
forces.

Money orders to Great Britain have been  
stopped before the exchange rate has  
risen to 21 per cent.

**INVADE GERMAN COLONY.**  
London, Aug. 9.—It was announced to-  
day that French troops from Dahomey  
have entered Northern Togoland, a  
German colony in West Africa, the  
southern portion of which was seized by  
British troops yesterday.

## MILITIA SHAKES HAND OF 'GHOST' TOMORROW

First Thing Soldier Boys Will Do  
Upon Arriving in Washington Is to  
Draw Pay for Ten Days.

CORPS WILL ENTRAIN TODAY

BY STAFF CORRESPONDENT.

Rifle Range Camp, Virginia Beach,  
Aug. 9.—The National Guard of the Dis-  
trict of Columbia is sleeping in "pup"  
tents tonight, the last night of the en-  
campment. This morning at 9 o'clock  
every tent, except those housing the  
kitchens was struck at the sound of a  
bugle.

Tomorrow morning the citizen-soldiers  
will entrain for Norfolk and will leave  
there on the boat for Chesapeake Beach  
at noon. They should arrive in Wash-  
ington Tuesday morning.

When tape sounded for the last time  
tonight every man turned in with feelings  
of regret. They had no sooner become  
accustomed to the camp life than the  
encampment ended. All the grown-ups  
of the place and the life and hate to  
leave. Brig. Gen. Harries felt the same  
way about it and announced his inten-  
tion of trying to have next year's en-  
campment extended to twenty days.

The boys enjoyed the last day im-  
mensely. They had their final dip in  
the ocean and this evening the whole  
brigade gave another dress parade for  
the entertainment of thousands of visi-  
tors, who came in the loaded with  
wine. Several informal receptions  
added to the revelry of the last day.

Within an hour after the bugle blew  
this morning, the camp equipment was  
packed upon a special train and started  
for Norfolk. The three-hundred field gun  
was held for a farewell salute tomorrow  
morning. It will then be rushed to Nor-  
folk on a special car to be put aboard  
the boat.

The boys are looking forward to their  
arrival in Washington for there they ex-  
pect to shake hands with the ghost which  
disappeared here last week. They  
will receive their pay for the ten days,  
which this morning was returned to them  
in the form of cash. The officers already  
have been paid, and their pay is gone. Here,  
at least, the enlisted men have the bet-  
ter of them this time.

### CHURCH BUILDING OPENED.

All Souls' Will Be Formally Ded-  
icated October 25.

With simple ceremonies, the new build-  
ing for the All Souls' Episcopal Church  
at Cathedral and Connecticut avenues  
was opened yesterday by the rector, Rev.  
Dr. J. McBride Sterrett. Following an ad-  
dress by Dr. Sterrett, the regular services  
were held at 11 o'clock. A large con-  
gregation was present and the informal de-  
dication was a success in every way.

The regular dedication services will  
be held October 25, when Bishop Charles  
M. Williams, of Michigan, will deliver  
the consecration sermon. By that time all  
finishing touches on the new church will  
have been completed.

The new building cost about \$20,000,  
and is expected to be a civic center for the  
surrounding community. The basement  
will be a large hall for entertainment  
of all kinds. A great memorial organ has  
been installed under the direction of H.  
H. Freeman, organist of St. John's Epis-  
copal Church.

### POEM READ AT FUNERAL.

Services Held for Mrs. Lillian  
Goodale Kirtledge.

Funeral services for Mrs. Lillian Good-  
ale Kirtledge, wife of Dr. Herman E.  
Kirtledge, who died at George Washing-  
ton University Hospital, Thursday, were  
held at Hine's chapel Saturday after-  
noon.

Mrs. Kirtledge was born in Hackett-  
town, N. J., forty-one years ago. She  
is survived by her husband and four chil-  
dren; Lilla, Fred, Robert, and Alanson.  
Funeral services, according to her wish-  
es, were simple, the only feature being  
the reading of a poem, "The Poet's  
Prayer," of which her husband is the  
author, by Charles Livingston Snell. A  
section of the Marine Band played Chopin's  
funeral march, following which the  
body was taken to the District Crematorium.

### LOOK TO YOUR BROTHER.

The thousands of suicides in the United  
States each year could be prevented,  
Representative Hamilton, of Missouri, said  
last night in an address at tent services  
of Fourth Presbyterian Church, at Chris-  
tiania, that the United States should look  
to their brother's keepers.

Representative Hamilton was the principal  
speaker at the services, held at the  
tent which was erected by law on the  
streets. He talked on "Our Relation to  
God and to Our Fellow-man."

Hundreds of men, Mr. Hamilton, said,  
who kill themselves could be made glad  
to live and to make themselves good  
citizens if Christians would give them  
practical help of the kind that would be  
rewarded as practically.

"We are our brother's keepers," he  
said, "and there is no way in which we  
can shift the responsibility."

A. LISNER Daily Hours, 8:15 to 5:00 G STREET

**R**

*I recommend*

**TU-BO-LAX**

*for Constipation*

*Relieves in 2 Minutes*

**CONSTIPATION—THE NATIONAL AILMENT**

Physicians and nurses will at once concede that constipation is  
the parent of most ailments.

One of the first questions a physician asks his patients is, "How  
are your bowels?"

One of the first remedies he prescribes in 90 per cent of all ail-  
ments is a cathartic of some sort.

Heretofore physicians have largely depended upon purgatives, sup-  
positories, or injections.

TU-BO-LAX comes as a helping friend to physicians, and a  
BLESSING to humanity. It is quite as important as the discovery  
of anaesthesia. It is immediate in its action, and beneficial in its effect.  
It may be administered to an infant, an invalid, or strong person with-  
out the slightest inconvenience or debilitating effect.

TU-BO-LAX is, in fact, a school teacher to the bowels. It teaches  
them to act regularly.

The merits of TU-BO-LAX at once appeal to the physician, and  
it is destined to soon find its way into all hospitals and sick rooms.

No traveler should start on a journey without a tube of TU-  
BO-LAX.

Every mother should have TU-BO-LAX in the house, ready for  
an emergency. We shall be surprised if TU-BO-LAX does not be-  
come a standard remedy in the army and navy. Doctors who have  
tested TU-BO-LAX are loud in its praise, and are giving it their  
heartiest support. TU-BO-LAX empties the lower bowel without dis-  
turbance the functions of any organ.

Castor oil, salts, purgative waters, and drastic cathartics must soon  
give place to this remedial agent. It is clean, convenient, and harmless.

Sold by all up-to-date druggists, or mailed on receipt of price, 25c.

## TU-BO-LAX

*for Constipation*

*Relieves in 2 Minutes*

**CONSTIPATION—THE NATIONAL AILMENT**

## TU-BO COMPANY

13th and Market Sts., Philadelphia, Pa.

**Austrians Bag Russian**  
**Aero Laden with Bombs**  
Special Cable to The Washington Herald.  
Vienna, Aug. 9.—A party of English  
women who have just come through  
Italy tell thrilling stories of an in-  
cident on the Austro-Russian frontier near  
Cracow, Galicia, when a Russian aer-  
oplane began dropping bombs on a small  
town near Cracow.

Two Russian officers were in the aer-  
oplane which was built for three persons.  
The vacant space was filled with bombs.  
After the pilots had done consider-  
able damage with their missiles the Aus-  
trians succeeded in bringing down the  
aeroplane with a field gun. The two of-  
ficers who were wounded severely, but  
not seriously, were taken prisoners.

Closed Daily at 8 P. M.  
Saturdays at 1 o'clock.

## Thermos Bottles

For Vacation Trips  
THE NURSERY 72 HOURS  
OR SICK ROOM 12 HOURS

The Thermos Bottle keeps  
ice-cold liquids ice-cold for 72  
hours in the hottest weather.

You simply pour in the liquid  
hot or cold and cork it up. The  
Thermos bottle will keep it that  
way. It is a scientific invention,  
embodying the well-known prin-  
ciple that heat or cold CAN'T get  
through a VACUUM. The Ther-  
mos bottle simply consists of one  
glass bottle inside another with  
a vacuum between. No chemicals  
of any kind—always ready—lasts  
a lifetime. Filled, cleaned, em-  
ptied same as an ordinary bottle.

Price, Pint Size, \$1.50 up.  
Quart Size, \$2.50 up.
